Class Levels

~ All classes are maintained at a moderate, yet warm temperature of 75-80 degrees.

~ You will never be forced to do what is impossible for you in ANY class!

~We ask that you please honor your body in whatever class you choose.

Beginner's Yoga & Level 1: These classes will introduce you to your body, how it works and to experience the many benefits of yoga. The focus is on building a strong foundation of alignment and developing proper breathing technique. It's pace is slower so that you can experience the postures thoroughly and understand modifications that are appropriate for your body. Our beginner class teachers are dedicated to helping you master form, structure, and breath so that you may progress with confidence in your practice. *Suitable for students who have never tried yoga, newer students and students with injuries.*

Level 1 & 2: These moderately paced classes will guide you through more challenging postures and sequencing, however, will continue to emphasize the fundamentals of yoga. Level 1-2 teachers offer fresh challenges for their students, while ensuring that beginner students are offered modifications. *Suitable for beginner, seasoned beginner & intermediate students.*

Mixed Level: A moderately paced class for all levels of students. This class will give you options and modifications for taking it down a level or ramping it up, depending on where you are at in your practice. *Suitable for all levels of students.*

Level 2 & 3: These classes will offer the opportunity for students to explore inversions, arm balances & more challenging sequences. Students will be encouraged to use their knowledge of postures and breathing to cultivate a more intuitive practice. We recommend you have at least 6 months of consistent yoga practice before joining this class. *Suitable for intermediate & advanced students.*
